

#2 Selecting the Right Satellite Service –

- **Global C-band coverage – Intelsat**

- 4-8 GHz - Fixed Satellite Service – FSS, aka maritime VSAT
- Requires larger antennas than L-, Ku-, or Ka- band, 1.0 to 3.5m (3 to 10 feet)
- Excellent resiliency to adverse weather and rain, speeds up to 2Mbps on shared services
- Regulatory requirements often restrict use to more than 200km off the coast
