This is a multiple identical item listing for 7.5 Amp Circuit Protection Fuses. Each bid quantity is for a Lot of One Hundred Twenty-Five (125) Fuses. You may bid / buy any number of lots, up to the total quantity available above.

There you go again: replacing that wimpy 5A fuse with another 5A fuse, knowing full well that it's gonna blow just like the last one. What you need is a fuse that will give your circuits the fortitude to withstand those transient high-load moments -- a fuse that won't simply melt away -- a fuse that will carry current even as smoke pours from your electrical goodies. What you need is 7.5 Amps!

Just because your electrical system was supplied with insulated wiring doesn't mean it has to stay that way. What is the #1 reason why small wires can't carry "big current?" Well, with all that insulation covering them, your wires simply get hot and melt. Your wiring needs plenty of fresh, cool air so your circuits can dissipate excess heat. Consider the electric company. Sure, they insulate wires attached to houses because they know some safety freak would complain. But when they leave the populated areas and start across the wide open spaces where nobody really cares, what do you see strung between the poles? Bare wires!

Now you can discover the "bare wire advantages" enjoyed by utility companies for decades. Simply replace those inadequate little fuses in all your circuits with these. If you accidentally pop one, put in two the next time. Or three. Or wrap some aluminum foil around the terminals. Then put some additional load on the circuit. Sure, it smells bad for a while, but you'll soon be free from that useless insulation once and for all.

Package weight:

- (1 to 2) One pound
- (3 to 8) Two pounds
- (9 to 13) Three pounds
- (14 to 19) Four pounds
- (20 to 25) Five pounds

Up to (8) lots will ship in a Small Priority Mail Flat-Rate Box for:

- \$5.35 Anywhere in the USA
- \$12.95 Anywhere in Canada or Mexico
- \$16.95 Anywhere in the World

Larger quantities:

- Any quantity will ship anywhere in the USA for \$11.35
- Up to (45) lots will ship anywhere in Canada or Mexico for \$32.95
- Up to (45) lots will ship anywhere in the World for \$47.95

Combined Shipping

Sellers are now required to use eBay's automated shipping calculator. Although it works reasonably well for single quantity purchases, you may get overcharged on multiple/combined purchases, or orders that will ship in a flat-rate box. If you will simply email us and request your total *prior to paying*, we will be glad to figure your actual shipping and send a corrected invoice. There are no "packing" or "handling" charges of any kind.

U.S. Shipments

FedEx

Although the eBay system displays a shipping price for UPS, we do not have a UPS account, and we ship FedEx Ground or FedEx Home Delivery only. All FedEx shipments include free insurance and a tracking number sent to your eBay email address.

Priority Mail

Priority is usually cheaper and often faster for light to medium weight items. Delivery confirmation and package tracking is included.

Priority Flat-Rate Boxes

(Small) Priority Mail Flat-Rate Box: Ship unlimited weight for only \$5.35, as long as everything fits into the 8.5" x 5.5" x 1.5" corrugated box.

(Medium) Priority Mail Flat-Rate Box: Ship up to seventy (70) pounds for only \$11.35, as long as everything fits into the 11" x 8.5" x 5.5" corrugated box.

(Large) Priority Mail Flat-Rate Box: Ship up to seventy (70) pounds for only \$15.45, as long as everything fits into the 12" x 12" x 5.5" corrugated box.

Flat-Rate is unbeatable for shipping hardware and other small/heavy items. We have developed methods of double-boxing very heavy Flat-Rate shipments for added security. Priority flat-rate shipments include tracking information sent to your eBay email address.

First Class Mail

By default, we ship most lightweight, non-fragile items by First Class Mail in a plastic bubble mailer. First Class is usually cheaper for single items, however, check the shipping details link if you are buying multiple quantities. A Priority flat-rate box is often much cheaper *and* faster for multiple purchases.

International (Non-US) Shipments

We ship all international packages through the US Postal Service, and we charge actual postal shipping rates. We no longer charge a handling fee for any international shipments because of the increased volume of our international sales. We thank our international customers for making this possible.

International Shipping Options:

First Class Mail International: Price is based on weight, maximum weight is (4) pounds [1.81 Kilograms], delivery time averages about ten days, but can occasionally take several weeks. Confirmation of shipping is provided by the customs document number, but no point-to-point tracking is available.

Priority Mail International: Price is based on package weight and dimensions. Maximum weight/dimensions vary by country. We use Priority Mail and occasionally Express Mail for larger/heavier packages that exceed the limits of cheaper options. Delivery time averages about 7 to 10 business days. Online tracking and (partial) insurance is included.

Priority Mail International Flat-Rate Envelope: Fixed price regardless of weight, up to (4) pounds [1.81 Kilograms]. \$12.95 to Canada and Mexico, and \$16.95 to all other countries. Items must fit into a 12.5" x 9.5" cardboard envelope, and the envelope must close and seal properly. Not suitable for bulky or angular items, or those needing protection from crushing or breakage. Delivery time averages about 7 to 10 business days. Shipping confirmation is provided by the customs document number, but tracking stops when the package leaves the USA.

(Small) Priority Mail International Flat-Rate Box: Fixed price regardless of weight, up to (4) pounds [1.81 Kilograms]. \$12.95 to Canada and Mexico, and \$16.95 to all other countries. Excellent for shipping bagged hardware, small parts, etc. Items must fit into an 8.5" x 5.5" x 1.5" corrugated box, and the box must close without distorting. Delivery time averages about 7 to 10 business days. Shipping confirmation is provided by the customs document number, but tracking stops when the package leaves the USA.

(Medium) Priority Mail International Flat-Rate Box: Fixed price regardless of weight, up to (20) pounds [9.1 Kilograms]. \$32.95 to Canada and Mexico, and \$47.95 to all other countries. Items must fit

into an 11" x 8.5" x 5.5" corrugated box, and the box must close without distorting. Delivery time averages about 7 to 10 business days. Online tracking and (partial) insurance is included.

Customs

Customs fees and other import taxes are imposed by some countries. We have no way of determining these costs prior to shipment, and all such costs are the responsibility of the customer upon delivery. We will not mark packages as gifts or declare false item values to reduce customs costs at the border. Customs fraud is a serious crime in the US and we will not accept that risk. Thank you in advance for understanding.

We cannot possibly stay informed concerning the import requirements of every country in the world. It is the responsibility of the buyer -- before purchasing -- to ensure that a particular item complies with all of his country's laws and regulations, and that it can be legally imported into his country.

Customs Delays: We have noticed that about 1% of international packages get held in foreign customs offices for extended periods (sometimes for several weeks). Fortunately, almost all are eventually delivered. Delays are more likely to occur in smaller countries or those with highly protectionist import policies. Such delays are unacceptable in our opinion, but there is absolutely nothing we can do about them.

Payment Terms

Payments must be received within (10) days unless you have made other arrangements with us. We accept all types of payments, including all major credit cards, through Paypal. EBay now prohibits sellers from offering acceptance of non-electronic payments, except for certain in-person transactions.

Returns

Any item may be returned to us within fourteen (14) days for a full refund of the purchase price, excluding shipping costs. Items which are listed specifically "as-is" are excluded from this refund policy.

Feedback

We leave feedback after the transaction is complete. No transaction is complete until the customer has received their purchase and is satisfied. If something needs to be refunded, the transaction is complete when the item has been returned and the customer has received their refund. We do not cave in to extortion but we do make every reasonable effort to satisfy every customer. If any item fails to meet your expectations, within the description posted in the listing, please contact us so we can make things right. We want to earn your repeat business.

Thank you!
